

Elite SKYWARRIORS

Introducing: The ELITE SKYWARRIORS

These beautiful, handmade authentic replicas are made from the very finest grade of select kiln-dried Philippine mahogany wood. The ELITE SKY WARRIOR replicas are made entirely by hand – from the hand-carving of the fuselage, wings and tail section – to the sanding of the aircraft's contours. Every part is assembled precisely into place using the highest quality adhesive available. After shaping and sanding, the model passes through several stages of priming and sanding before it is hand-painted to duplicate the actual colors of a selected historical aircraft. Our artisans detail from researched reference materials, including all the insignias, squadron badges, nose-art, emblems and serial numbers, to replicate the original aircraft to scale.

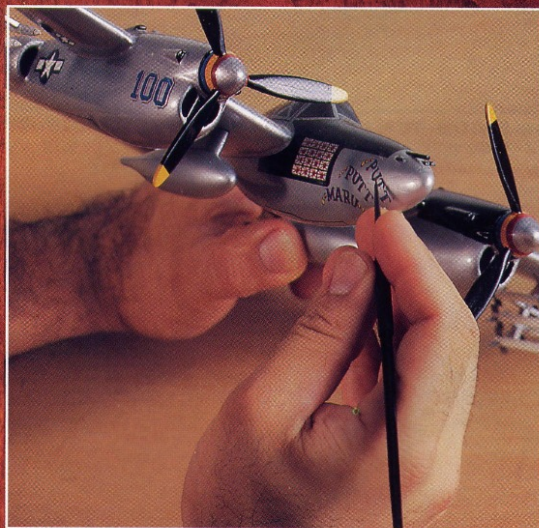

Hand-made bombs, rockets, missiles, and droptanks are correctly reproduced to represent real weapon loads for the various aircraft and to give the model an enhanced value. Next, multiple coats of clear lacquer are applied to protect the exquisite artwork and provide an overall glossy finish.

Finally, each model is provided with a natural stained mahogany stand with a brass nameplate depicting the model's designation.

We believe our ELITE SKYWARRIOR products represent the highest valued collectibles in their price range – the copies cannot even begin to compare with our WORLD CLASS CRAFTSMANSHIP!!!

The painstaking process of handcarving from accurate scale plans and photographs takes many manhours.

Talented artist carefully and accurately handpaints every last detail on these ELITE SKY WARRIORS display replicas

These are exceptional models. They are faithfully reproduced in kiln dried Philippine Mahogany. Each is carved, joined and sanded by hand. The deep, rich finish that distinguishes these models from all others is created when the up to 35 layers of enamels is applied. The artists then hand paint all of the details onto each piece. No decals are used.

The final product is a beautiful wooden sculpture.

Each model comes with its own desk stand. All the propellers are made of wood and will rotate. Several of the jets comes with movable "swing wings", also made of wood.

As you see, we offer a huge selection, and try to have the majority available at all times. However, they are not mass produced and some models may be available in very limited quantities.

AM582-CR
MARTIN M-130 CHINA CLIPPER, PAN AMERICAN

Our models are made from very high quality, kiln dried mahogany. They require little special care. We recommend you keep them out of direct sunlight and away from sources of heat or cold. Dust with a soft cloth, do not use paper or paper towels.

CATALOG PART NUMBER INFORMATION

The following information is provided to you, our valued customer, to explain how we have organized our product line of high quality display models into specific product groups for ease of finding that specific display model you want and what scale (size), we make it in and the exact material, that we manufacture each and every model with. The following chart explains our part numbering system.

EXAMPLE:

C 07 72 W 2 /2 W = GROUP C, ITEM #07, 72 = 1/72nd Scale, W = SEAPLANE,
2 = 1931 to 1950, W = PGM-3C/D MARINER

- W = Denotes the material that the model is constructed of, such as: W = Philippine Mahogany, R = Molded Resin, P = Precision Molded Plastic, F = Precision Molded Fiberglass
- /2 = Denotes the same aircraft, but with different paint and decal scheme on each version, all else being the same on the model.
- 2 = Denotes the historical time frame that the particular aircraft served/used. 1 = 1900 to 1930 / 2 = 1931 to 1950 / 3 = 1951 to PRESENT
- W = Denotes the exact mission type of each aircraft in the subject class, such as:
F = FIGHTER B = BOMBER A = ATTACK
T = TRAINING X = EXPERIMENTAL
P = PASSENGER H = HELICOPTERS
C = CARGO M = MISSILES/ROCKETS
E = RECON/ELECTRONIC WARFARE
W = SEAPLANES S = SPACECRAFT
R = REFUELING TANKERS
- 72 = Denotes the scale of the particular model in the class such as 72 = 1/72nd scale.
- 07 = Model sequence number in the series in each subject class
- C = Model master subject class...such as:
A = UNITED STATES ARMY AIR CORPS AIRCRAFT (1903-1946)
B = UNITED STATES AIR FORCE AIRCRAFT (1947-PRESENT)
C = UNITED STATES NAVY/COAST GUARD/MARINE CORPS AIRCRAFT (1903-PRESENT)
D = UNITED STATES ARMY AIRCRAFT (1947-PRESENT)
E = NASA AIRCRAFT/SPACECRAFT/MISSILES (1945-PRESENT)
F = FOREIGN MILITARY AIRCRAFT, ALL NATIONS (1914-PRESENT)
G = COMMERCIAL AIRCRAFT FROM AROUND THE WORLD (1918-PRESENT)
H = CIVILIAN/BUSINESS AIRCRAFT FROM AROUND THE WORLD (1918-PRESENT)

*S*hips and Boats From Around The World

We proudly present the beginning of our new product line of important historical boats and ships made of mahogany wood. Our craftsmen follow official reference plans to construct these fully detailed vessels. You will be amazed at the fine details captured in miniature on these models.

Many other items will be added to this product line in the near future, so take a look at these beautifully handcrafted collectibles...

WORLD WAR II U.S. NAVY ELCO 80' PATROL TORPEDO BOAT PT-103 CLASS

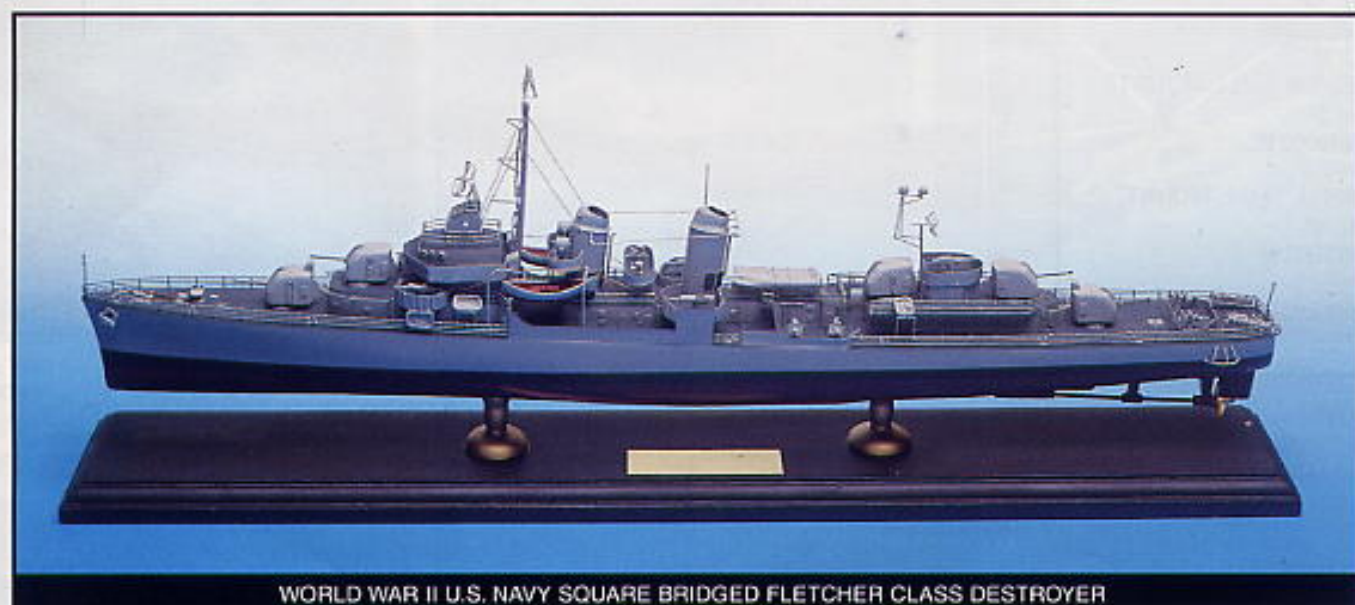

The now famous PT-109 of President Jack Kennedy. One of 94 boats ordered in 1941.

Scale: 1/40
